

# Assignment 5: EIP Research Task

---

## Enterprise Integration Patterns for Messaging Solutions

*Message-oriented middleware* (MOM) is among the most popular technologies used for connecting applications. The best practices in implementing messaging systems in enterprise application integration refer to applying *enterprise integration patterns* (EIP).

One of the signature readings in this area is the book of Gregor Hohpe and Bobby Woolf "*Enterprise Integration Patterns Designing, Building, and Deploying Messaging Solutions*".

Your tasks are:

- to read the [Chapter 3: Messaging Systems](#),
- to extract **at least ten terms**, related to System Integration, which you find essential
- to create a [glossary](#) of those terms

Submit your list in Peergrade and add ten study points to your collection.

The task is individual.
